Editorial

The IADIS International Journal on Computer Science and Information Systems (IJCSIS) is a peer-reviewed scientific journal published exclusively in an electronic form. Its mission is to publish original contributions pertaining to the topics of Applied Computer Science, Information Systems and their Applications, to disseminate knowledge amongst its readers and to be a reference publication. The IADIS IJCSIS publishes original research papers and review papers, as well as auxiliary material such as: short ongoing research papers, case studies, conference reports, management reports, book reviews and commentaries.

This volume (ISSN: 1646-3692) combines 8 selected original papers that bring together researchers covering the wide spectrum of Computer Science and Information Systems and their applications. The authors' contributions embrace important research topics and intend to provide a current depiction of the research in the field while opening way to future research work.

These papers illustrate the different facets of research done on Applied Computer Science, Information Systems and their Applications and contribute with the work they've developed to the enrichment of this field. The review of the relevant literature contributes to the theoretical grounding of these areas and the innovative empirical research on different technologies creates opportunity for the development of pioneering findings.
