The International Conference e-Society (ES) 2010 was held in Porto, Portugal, 18 – 21 March, 2010.

The ES 2010 aimed to address the major issues regarding the Information Society context. Also, the conference tried to join not only technical as well as the nontechnical aspects of the Information Society. The conference was developed along with nine key tracks, covering different aspects related to the Information Society, such as: eSociety and Digital Divide, eBusiness / eCommerce, eLearning, New Media and eSociety, Digital Services in eSociety, eGovernment / eGovernance, eHealth, Information Systems and Information Management.

The e-Society 2010 Conference had 219 submissions from more than 36 countries. Each submission has been anonymously reviewed by an average of four independent reviewers, to ensure the final high standard of the accepted submissions. From the papers submitted, 40 received blind referee ratings that signified acceptability for publication as full papers (acceptance rate below 19 %), the remaining were published as short papers, reflection papers, posters and doctoral papers.

The conference, besides the papers’ presentations also featured two keynote presentations by Dr. Christina Preston, MirandaNet Founder, UK and Professor Claudia Loebbecke, Chaired Professor of Business, Media and Technology Management, University of Cologne, Germany.
