The International Conference Interfaces and Human Computer Interaction 2008 (part of the Multi Conference on Computer Science and Information Systems - MCCSIS) was held in Amsterdam, The Netherlands, 25-27 July, 2008.

The Interfaces and Human Computer Interaction (IHCI) 2008 Conference dealt with the main issues regarding the Interface Culture and Design with a particular emphasis on the affective aspects of design, development and implementation of interfaces and the generational implications for design of human and technology interaction. This conference aimed to explore and discuss innovative studies of technology and its application in interfaces.

The 2008 IHCI Conference received 109 submissions from more than 28 countries. Each submission was anonymously reviewed by an average of four independent reviewers, to ensure that accepted submissions were of a high standard. Consequently only 25 full papers were approved which meant an acceptance rate below 23%. A few more papers were accepted as short papers, reflection papers and posters. An extended version of the best papers was published in the IADIS International Journal on Computer Science and Information Systems (ISSN: 1646-3692) and also in other selected journals.

Extended versions of the best papers were published in:

- the IADIS International Journal on Computer Science and Information Systems (ISSN: 1646-3692).

Besides the presentation of full papers, short papers, reflection papers and posters, the conference also included two keynotes presentation from internationally distinguished researchers, Professor Tom Gross, Faculty of Media, Bauhaus-University Weimar, Germany, and Professor Matthias Rauterberg, Technische Universiteit Eindhoven, The Netherlands.

**Keynote Presentation:**

HUMAN-CENTRED COMPUTING FOR COOPERATIVE SYSTEMS

by Prof. Tom Gross, Faculty of Media, Bauhaus-University Weimar, Germany
Keynote Presentation:

**ALICE: AN AUGMENTED REALITY INSTALLATION FOR AMBIENT CULTURE IN THE WEST**

by Prof. Dr. Matthias Rauterberg, Eindhoven University of Technology, The Netherlands

In general, this 2nd edition offered an opportunity to all their participants to discuss with success the most significant aspects regarding the theme Interfaces and Human Computer Interaction. It served as a forum that gathered researchers, practitioners, students and anyone that was working or studying in the field of the Interfaces and Human Computer Interaction.

Committee Members:

Adam Cheyer, SRI, USA
Alexander Felfernig, Universitätklagenfurt, Austria
Alexander Gelbukh, National Polytechnic Institute (IPN), Mexico
Alissa Antle, Simon Fraser University Surrey, Canada
Amy Hurst, Carnegie Mellon University, USA
Ana C. Andrés del Valle, Accenture Technology Labs, France
Anita Fang Chen, Chalmers University, Sweden
Anton Nijholt, University of Twente, The Netherlands
Barry Brown, University of California, San Diego, USA
Berardina Nadja de Carolis, Universita' di Bari, Italy
Betsy van Dijk, University of Twente, The Netherlands
Bilge Mutlu, Carnegie Mellon University, USA
Carla Freitas, UFRGS, Brazil
Catherine Pelachaud, University of Paris 8, France
Cecilia Baranauskaus, UNICAMP - Universidade Estadual Campinas, Brazil
Cecilia Sik Lanyi, University of Pannonia, Hungary
Claude Ghaoui, Liverpool John Moores University, UK
Colin Swindells, University of Victoria, Canada
Daniel Salber, Joost Technologies B.V., The Netherlands
Daniela Maria Romano, University of Sheffield, UK
Didier Guzzoni, Ecole Polytechnique Fédérale de Lausanne, Switzerland
Elena Zudilova-Seinstra, University of Amsterdam, The Netherlands
Ellen Yi-Luen Do, College of Computing Georgia Tech, USA
Francesca Rizzo, Politecnico di Milano, Italy
Grigori Evreinov, University of Tampere, Finland
Grigori Sidorov, National Polytechnic Institute, Mexico
Guy Wood-Bradley, Deakin University, Burwood, Victoria, Australia
Harald Reiterer, University of Konstanz, Germany
Hiram Calvo-Castro, National Polytechnic Institute, Mexico
Huahui Wu, Google, USA
Ilpo Koskinen, University of Art and Design Helsinki, Finland
Jean-Paul Sansonnet, LIMSI-CNRS, France
Jeffrey Wong, Carnegie Mellon University, USA
Jenni Anttonen, University of Tampere, Finland
John Waterworth, Umea University, Sweden
John Zimmerman, Carnegie Mellon University, USA
Jörg Baus, DFKI GmbH, Germany
Jörgen Lindh, Jönköping International Business School, Sweden
Jose David Ortega, Centro de Investigación en Computación, IPN, Mexico
Josef Gründler, FH Joanneum University of Applied Sciences, Austria
